Form of Representation

Regulation EE does not require a person to make the "market intermediary" representation in any particular form. Some market participants, however, have requested that the Board clarify that the representation can be made orally or in writing. The Board has amended § 231.3(a) of Regulation EE accordingly. The regulation does not require written representations (either as part of a financial contract or outside of the contract). Representations can be made orally and need not be made to a particular counterparty. This amendment should remove any lingering uncertainty in the financial markets as to the form of the representation as well as reduce the burden on any institutions that assumed the representation had to be in writing.

Regulatory Flexibility Act Certification

In accordance with the Regulatory Flexibility Act (5 U.S.C. 605(b)), the Board certifies that this rule will not have a significant economic impact on a substantial number of small entities. The rule applies only to entities with a large volume of financial contracts and, in any case, does not impose any additional requirements on entities affected by the regulation.

Paperwork Reduction Act

In accordance with section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Ch. 35; 5 CFR 1320 Appendix A.1), the Board reviewed the rule under the authority delegated to the Board by the Office of Management and Budget. No collections of information pursuant to the Paperwork Reduction Act are contained in the rule.

Administrative Procedure Act

The Administrative Procedure Act generally requires agencies to publish a notice of proposed rule making before adopting a final rule (5 U.S.C. 553(b)). In certain circumstances, however, the Act allows an agency to forego to the notice-and-comment process. These circumstances include when the agency for good cause finds that notice and comment are unnecessary or contrary to the public interest (5 U.S.C. 553(b)(B)). The amendment to Regulation EE does not make a substantive change to the rule but rather clarifies that by not specifying a form of representation in the original rule, the Board intended that the representations could be made orally or in writing. The amendment clarifies a market uncertainty and may

reduce burden for any institutions that assumed the representation had to be in writing. For these reasons, the Board finds that public comment is unnecessary and contrary to the public interest. Therefore, the Board finds that this amendment fits within the Act's exceptions from the notice-and-comment procedure.

Airworthiness Directives; Airbus Model A330 and A340 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain Airbus Model A330 and A340 series airplanes. This action requires a one-time inspection to verify that the attachment screws at a pressure switch located on the trim tank fuel transfer line are properly torqued, and that lockwires are installed. This amendment is prompted by reports of loose screws and missing lockwires at this attachment. The actions specified in this AD are intended to prevent loose or missing screws, which could allow fuel
